

# GIORGIO ALLOTTA

3D GENERALIST & SOUND DESIGNER

## ABOUT ME

Full-time creative mind, part-time silly mind. Active researcher of the video game industry, games market and all forms of multimedia art.  
Passionate and eager to create something everlasting, that will bring me fulfilment.  
Find more about me and my work on: [giallovero.com](https://giallovero.com)

## EXPERIENCE

### GREY MATTERGAMES (internship)

[greymattergames.com](https://greymattergames.com)

Kortrijk - BELGIUM

- The Project: Computronium: retro sci-fi automation game on Steam
- Engine Dev: Implemented Bevy systems with multiplayer-first & mod-friendly architecture.
- Sound Design: Designed custom SFX in Reaper; then implement all sounds in Bevy and make a sound debugger
- UI/UX Design: Designed modular analog/industrial retro-futuristic UI prototypes on Penpot & Affine.
- More info on my portfolio: [giallovero.com/projects/greymatter.html](https://giallovero.com/projects/greymatter.html)

### PRYSN (applied student project)

[giallovero.itch.io/prysn](https://giallovero.itch.io/prysn)

- The Project: First person Lo-Fi horror game in Unreal Engine 5. Made by 6 students in 4 months.
- Sound Design: make all game sounds in Reaper and implement them using Unreal MetaSounds.
- UI/UX: Created both diegetic and screen-space UI designs with creative problem solving.
- More info on my portfolio: [giallovero.com/projects/prysn.html](https://giallovero.com/projects/prysn.html)

### PROJECT COSACCODRAGO (personal project)

[giallovero.com/projects/cosaccodrigo.html](https://giallovero.com/projects/cosaccodrigo.html)

- The Project: 3D remake of the Yu-Gi-Oh! artwork, completely animated and sound designed in engine,
- Recreating in HighPoly/SubD modeling in blender, custom creature rigging, transforming animation, and custom SFX / VFX
- Currently work in progress
- More info on my portfolio: [giallovero.com/projects/cosaccodrigo.html](https://giallovero.com/projects/cosaccodrigo.html)

## EDUCATION

2021-2026

### HOWEST DIGITAL ARTS & ENTERTAINMENT (DAE)

[digitalartsandentertainment.be](https://digitalartsandentertainment.be) Kortrijk - BELGIUM

Independent Game Production student  
Granted me a broad set of skills in all directions of game development, to which I also added extra sound design courses

2018-2020

### EUROPEAN SCHOOL OF BRUSSELS II (EEB2)

[eeb2.be/en/home](https://eeb2.be/en/home) Brussels - BELGIUM

Graduated on my last years of highschool at the EEB2, where I directed my studies on: economics, digital arts and math & science.

2015-2018

### LICEO STATALE LEONARDO DA VINCI (LSDV)

[liceodavincifi.edu.it](https://liceodavincifi.edu.it) Florence - ITALY

Studied my first 3 years of highschool at the Liceo Da Vinci of Florence.  
An Italian Lyceum with a scientific orientation.

## EXTRACURRICULAR

Summer

2016 - 2018

### LIBERA SUMMER CAMPS

[libera.it](https://libera.it) (multiple locations) - ITALY

Voluntary Work with the Libera Organization that works for the reconstruction of confiscated sites.  
This showed me the importance of working together in a social and healthy environment for the benefit of the community.

**Languages** Italian Native  
English C1
